Whitecliffe University of Applied Sciences (Berlin International)

Berlin, Germany

Experience international education in Germany's vibrant capital, Berlin. English-taught, practical, and internationally focused programmes.

Building a strong global network

Whitecliffe University of Applied Sciences*, currently Berlin International University of Applied Sciences, offers a truly international learning environment that promotes cross-cultural understanding and an open-minded, inspiring study atmosphere. Small class sizes, interdisciplinary projects, and strong industry connections support a collaborative, multicultural learning experience that connects study with real-world practice.

The university offers English-taught bachelor's and master's programmes with a focus on architecture, design and business administration. Students benefit from practice based teaching which aligns with international academic standards, preparing students for global careers.

Why study here?

- **Global community of students and staff from over 93+ countries**
- **100% English-taught classes**
- **Berlin's only English-taught Architecture degree**
- **Study in Berlin, one of the world's best student cities**
- **Part of the BAU Education Group and Global Whitecliffe Group**

Explore the vibrant city of Berlin

Studying at Whitecliffe University of Applied Sciences (Berlin International) means learning in one of Europe's most vibrant student cities. Berlin offers a unique mix of culture, creativity, and career opportunities, with a strong international community and an affordable student lifestyle. The campus is located in south-west Berlin, close to landmarks such as Potsdam, Sanssouci Palace, and the Wannsee lakes, offering convenience with easy access to the city. Berlin's strong public transport network and international rail connections make travel simple, with direct trains to popular cities including Paris, Brussels, Amsterdam, Vienna, Prague, and Copenhagen and much more.

Explore Europe and travel to 29 Schengen countries with your student residence permit.

Study options

Undergraduate
Architecture | Business | Design

Postgraduate
Architecture | Business | Design

> *"Personally I always found it hard to learn in really large classes as the learning approach is so generalised and here it's very personalised. We get many one-to-one feedback sessions with the professors and in many classes we are separated into even smaller groups".*
> ***Ema Humajova, BA Architecture Student***

Career-ready graduates

As part of a global network, Whitecliffe University of Applied Sciences (Berlin International) offers students access to an international academic and professional learning environment with extensive opportunities for study and internship exchanges.

Berlin's reputation as Europe's start-up capital helps students develop strong industry links through projects, internships, and collaborations with companies.

The university has a distinctive DNA rooted in creativity and a strong learner centric focus. Its personalised approach to education, combined with dedicated student well-being support, mentoring, and campus resources, ensure students thrive both academically and personally while preparing for successful international careers.

Berlin is ranked top 7 in the world for best student cities (QS Best Student Cities 2026)

One of Europe's most multicultural cities, with people from 190+ countries living in Berlin.
